MySQL	JSP
JSON	SVG

ADDITIONAL SKILLS:

SEO	CMS
email Coding	Hosting Setup
UI/UX Design	Material Design
MailChimp	Tag Manager

MICROSOFT OFFICE SUITE:

Teams	Word
Excel	Outlook

PROFESSIONAL EXPERIENCE

Softframs | Sr UI Developer | 8/2019 - present

As the UI Designer for the MEARIS (CMS - Center for Medicare Medicaid) Application System, I uphold the design integrity while focusing on UI aesthetics and usability. Leveraging Bootstrap 4 and Angular Material UI components, I translate Figma design concepts into cohesive Angular UI elements, ensuring a seamless user experience. Additionally, I provide CSS and SASS support to the team, offering valuable design insights to enhance product quality. By constructing custom, reusable components, I maintain consistency across the application's UI. Operating in an agile environment, I develop functional code and spec tests, utilizing tools such as git, AWS, and VSCode for efficient day-to-day development.

Kaseya, International | Front End Web Developer | 6/2016 - 8/2019

On a daily basis, I was responsible for building features, maintaining, and enhancing a portfolio of sites within the Kaseya brand. My workflow involves utilizing Adobe CC tools such as Photoshop and Illustrator for design tasks. In my development environment, I rely on Atom and iTerm for coding, Git for version control, and various CMS systems including Drupal, Wordpress, and Jekyll for content management. Proficient in HTML5, CSS3, and JavaScript, with additional experience in PHP for minor tasks. I leverage technologies such as Bootstrap 4, Flexbox, and SASS to streamline development processes, along with tools like Gulp for task automation. Database management is facilitated through MySQL, while npm and ACF aid in plugin integration and management. Furthermore, I implement tracking and analytics solutions using Google Tag Manager to monitor site performance and user behavior.

WorldatWork, Scottsdale | Front End Web Developer/Designer | 9/2013 - 6/2016

In this role, I was responsible for web design, front-end development, and the maintenance of web pages within an extensive structure comprising over 40,000 pages. I relied on a range of technologies on a daily basis, including Adobe CS6 tools such as Dreamweaver, Photoshop, and Illustrator. Additionally, I utilized Office suite applications such as Word, Excel, and Outlook within a Mac environment. My proficiency extended to programming languages such as XHTML, HTML5, CSS3, jQuery, and JavaScript, with version control managed through Git in a .jsp environment. I also gained experience in secondary technologies including Sass, LESS, SVG, Java, XML, Ajax, JSON, and terminal commands. Supplementary software used in my workflow included atom.io, Brackets, Flash, Cornerstone SVN, Confluence, and JIRA for effective project management and collaboration.

Anderson Advertising, Scottsdale | Web Developer/Designer | 4/2013 - 9/2013
